

DESCRIPTION

This cable will let you turn a JST PH 3-pin cable *socket* into 4 individual tinned wires. These are great to match up with our JST 4-PH cables, for extending and connecting sensors or LEDs, and the wires are even color coded!

- Black for GND
- Red for V+
- White for SDA
- Green for SCL

Even though this is a JST PH connector, it will fit into a Seeed Grove connector and have the right matching wires as well.

[We also carry the socket 'mating' version of this cable over here.](#)

[For more information about JST PH connectors, visit the JST website](#)

TECHNICAL DETAILS

- Wire Length: 7.8" / 200mm
- Wire Diameter: 1.6mm
- JST Connector: 10mm
