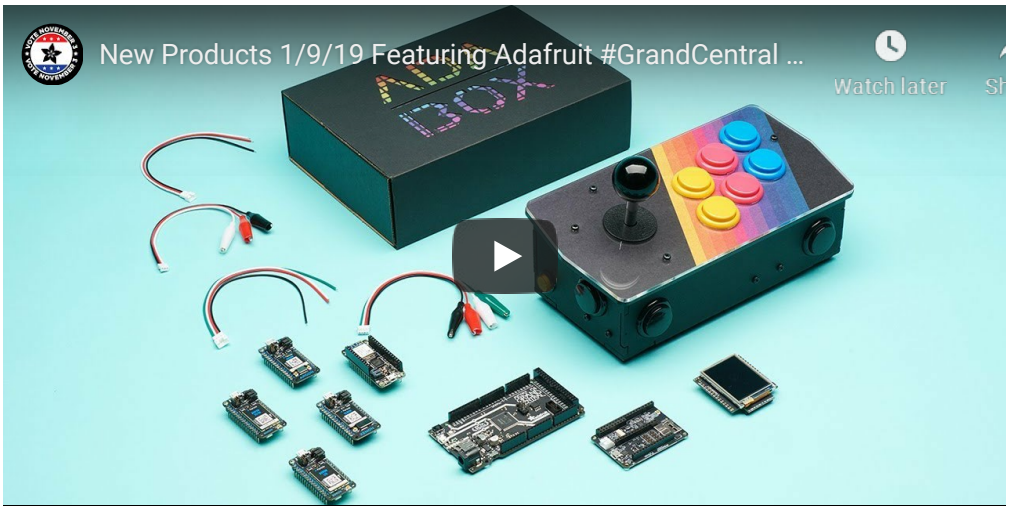
DESCRIPTION

This cable will let you turn a JST PH 3-pin cable *socket* into 3 individual tinned wires. These are great to match up with our JST 3-PH cables, for extending and connecting sensors or LEDs, and the wires are even color coded!

We also carry the socket 'mating' version of this cable over here.

For more information about JST PH connectors, visit the JST website



TECHNICAL DETAILS

- Length (including connectors): approx 200mm

Product Weight: 2.7g / 0.1oz
