Product introduction

Knob type Lead-free compact dip rotary switch (FR01 series), PC-H terminal type: binary-coded decimal, code: real, magazine stick packaging, highly reliable contact part, kink bent terminal, operating temperature range:- 25 to 85 °C · Applications: FA / OA equipment, radio equipment, communication equipment, professional video cameras, electronic measuring equipment, control panels, consumer electronics, amusement equipment, etc. · EU-RoHS directive compatible Model: FR01-KR10H -ST

Product Summary

Model name	FR01-KR10H-ST
category	Rotary
series	FR01
Subcategory	Non-illuminated switch
Contact specifications	Gold plate
Current capacity for detailed display 1	DC 5V 100mA (switching rating)
Current capacity for detailed display 2	DC 50V 100mA (non-switching constant
Operating temperature range (°C)	-25 / + 85
Number of poles	2 evolution decimal
Function 1	Real code
Function 2	Dip type
Operation unit shape	Knob type
Terminal shape	PCB right angle
Environmental performance	RoHS

Specification change
