SHAPE & DIMENSIONS

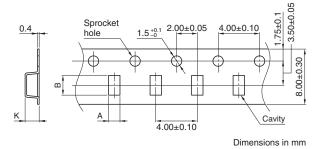

Dimensions in mm

PACKAGING STYLE

Dimensions in mm

TAPE DIMENSIONS

Туре	A	В	К
NLCV32-EFD	2.8	3.5	2.3

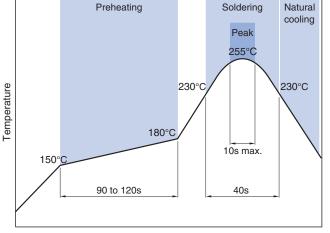

PACKAGE QUANTITY

Package quantity	2000 pcs/reel

TEMPERATURE RANGE, INDIVIDUAL WEIGHT

	Operating temperature range*	Storage temperature range**	Individual weight
	–40 to +105 °C	–40 to +105 °C	50 mg
*	Operating temperature range includes self-temperature rise		

** The storage temperature range is for after the assembly.

Time

Please be sure to request delivery specifications that provide further details on the features and specifications of the products for proper and safe use.
Please note that the contents may change without any prior notice due to reasons such as upgrading.

REMINDERS FOR USING THESE PRODUCTS

Before using these products, be sure to request the delivery specifications.

SAFETY REMINDERS

Please pay sufficient attention to the warnings for safe designing when using this products.

The storage period is less than 6 months. Be sure to follow the storage conditions (temperature: 5 to 40°C, humidity: 10 to 75% RH c less). If the storage period elegand, the seldering of the terminal electrodes may deteriorate.				
If the storage period elapses, the soldering of the terminal electrodes may deteriorate.				
O Do not use or store in locations where there are conditions such as gas corrosion (salt, acid, alkali, etc.).				
 Before soldering, be sure to preheat components. The preheating temperature should be set so that the temperatu does not exceed 150°C. 	re difference between the solder temperature and chip temperature			
Soldering corrections after mounting should be within the range of the conditions determined in the specifications. If overheated, a short circuit, performance deterioration, or lifespan shortening may occur.				
When embedding a printed circuit board where a chip is mounted to a set, be sure that residual stress is not given to the chip due to the overall distortion of the printed circuit board and partial distortion such as at screw tightening portions.				
Self heating (temperature increase) occurs when the power is turned ON, so the tolerance should be sufficient for the set therma design.				
 Carefully lay out the coil for the circuit board design of the non-ma A malfunction may occur due to magnetic interference. 	gnetic shield type.			
\bigcirc Use a wrist band to discharge static electricity in your body through the grounding wire.				
\bigcirc Do not expose the products to magnets or magnetic fields.				
O Do not use for a purpose outside of the contents regulated in the	delivery specifications.			
 The products listed on this catalog are intended for use in general electronic equipment (AV equipment, telecommunications equipment, home appliances, amusement equipment, computer equipment, personal equipment, office equipment, measurement equipment, industrial robots) under a normal operation and use condition. The products are not designed or warranted to meet the requirements of the applications listed below, whose performance and/or quality require a more stringent level of safety or reliability, or whose failure, malfunction or trouble could cause serious damage to society person or property. If you intend to use the products in the applications listed below or if you have special requirements exceeding the range or conditions set forth in the each catalog, please contact us. 				
 (1) Aerospace/aviation equipment (2) Transportation equipment (electric trains, ships, etc.) 	(8) Public information-processing equipment(9) Military equipment			
(3) Medical equipment	(10) Electric heating apparatus, burning equipment			
(4) Power-generation control equipment	(11) Disaster prevention/crime prevention equipment			
(5) Atomic energy-related equipment	(12) Safety equipment			
(6) Seabed equipment(7) Transportation control equipment	(13) Other applications that are not considered general-purpose applications			
When designing your equipment even for general-purpose application tection circuit/device or providing backup circuits in your equipment.	ns, you are kindly requested to take into consideration securing pro-
